

## Water's Edge Introduces its New Dragon Boat Rental Fleet

Water's Edge strives for excellence in the services we offer the paddle sport community, and to continue that tradition we have recently purchased a fleet of new BUK Dragon Boats. The boats are a strategic addition to the company's innovative line of paddle sport coaching and race event services. A light and fast boat, BUK Dragon Boats are renowned in the paddle community as a boat that makes racing much more exciting for all paddlers and is an important step in improving the quality of race events.

Water's Edge will be using this International Dragon Boat Federation (IDBF) approved race fleet at all of the race events that our company will be managing. We are certain that the quality of race events will improve through ensuring fair racing at every level. We also know that the lucky racers who will be paddling in our new fleet of BUK Dragon Boat will love the light-weight of these boats which improve speed and agility in race situations.

We are offering the opportunity for other groups, clubs, and organizations to rent our new fleet of BUK Dragon Boats to help make your events exciting, fair and of high quality.

If you are interested in either renting our new BUK Dragon Boat fleet or would like to discuss how Water's Edge can help you organize or manage your race events, please contact contact us by calling 604.657.7505 or [click here](#) to send us an email.
